

It's time to make your voice heard!

Our Fall 2000 Industry HIPAA Progress Survey is now online. For your convenience, it may be completed at HIPAAAdvisory.com <http://www.hipaadvisory.com/action/survey/> via our new interactive questionnaire format.

We've extensively customized the survey to reflect your recommendations and evolving industry concerns on HIPAA compliance. First, you will be asked to complete some broad, basic questions. Then, depending on whether you represent a payor, provider, vendor or a clearinghouse, you will be asked several questions specific to your role in healthcare. The survey should take about 5 minutes to complete.

Please participate! Your input will be invaluable in tracking and reporting industry's efforts towards HIPAA compliance.

Deadline for completion of the Fall survey is Friday, October 6th. Results will be published in our mid-October issue of HIPAAAlert, on HIPAAAdvisory.com and in a future HIMSS Newsletter.

Go to the survey now at:  
<http://www.hipaadvisory.com/action/survey/>

A word about your privacy:  
Survey results will be released in the aggregate only. Identifying information about individual respondents is not being collected.
